

Movement Technology for flat screen monitors and OR lights: the OndaSpace from Ondal.

Compelling versatility - OndaSpace, for a high score from your customers. The OndaSpace easily supports monitors and lights as a ceiling- or wall-mounted system.

OndaSpace:

- designed for loads up to 40 kg
- more than 360-degree swivel angle of support arms
- 330-degree swivel angle of support arms with anti-twist safeguard due to interior supply lines
- three- or five-pole plug-and-socket connection
- height lock in two different positions

Advantages of OndaSpace:

- Built-in assembly panes to allow for pulling in the cables onsite without any problems.
- Straight version of the OndaSpace for low ceilings is also available.
